

PROTECTING THE WORKER WORKPLACE ENVIRONMENT

About Us

Herndon Solutions Group (HSG) is a woman-owned business committed to developing and maintaining lasting relationships with our clients.

Since HSG's founding in 2008, our teams of environmental, emergency planning and preparedness, and occupational health and safety subject matter experts have been proudly serving our customers.

Our Values

- ✓ **Integrity.** Diligence in our operations by doing the right thing for clients, team members, and the environment.
- ✓ **Commitment.** Dedicated to seeing success realized in all aspects of our business.
- ✓ **Teamwork.** Built positive relationships between clients, each other, and the community that build upon strengths while fostering transparency and communication.

Environmental Services

HSG is passionate about solving complex environmental challenges and provides innovative solutions through compliance audits, site assessments, ecological monitoring, records administration, and environmental management systems.

Emergency Planning and Preparedness

HSG is committed to providing professional services to assist clients with identifying risks, mitigating those risks through planning and training, developing effective emergency response and recovery plans, and demonstrating compliance.

Occupational Health and Safety

HSG is dedicated to a healthy worksite as an integral part of mission success and delivers collaborative solutions in workplace safety, industrial hygiene, health physics, sanitation and public health, wellness and health promotion, and medical services.

Why Choose Us

HSG provides environmental, emergency planning, and occupational health services to a diverse customer base of federal, state, local, and commercial customers, including NASA, BLM, Boeing, ULA, and SNWA.
